ELECTROGALS 2011, at Disjecta!

This festival of electronic music and digital art by women takes a giant leap - expanding on last year's incredible show, we will have a week-long gallery exhibition of sound art, featuring sound installations, a listening station where you can hear music from composers from around the world, and workshops and classes, culminating in two nights of music, video and performance. It's gonna be EPIC, people!

This will all take place at Disjecta in October of this year - the gallery show is schedule to run Oct. 7-14, and the concerts will be October 14th and 15th.

Keep an eye on [www.electrogals.org](http://www.electrogals.org), and look for Electrogals on Facebook.
